## VIRTUAL WORKSHOP

### VALUE STREAM MAPPING

**USE VSM TO IDENTIFY HIGH IMPACT IMPROVEMENT OPPORTUNITIES IN YOUR BUSINESS**

Value Stream Mapping is a Lean implementation event that involves creating a Value Stream Map (VSM) which is a tool that delineates and analyzes the flow of materials and information required to bring a product or service to a customer.

A VSM provides a way to visually see the entire enterprise in order to quickly identify wastes and performance bottlenecks. The methodology systematically takes your company from its current state of operations to a dramatically improved future state. Learn to:

- Draw a current state VSM that shows delay and wastes in information and shop floor flows
- Draw a future state map that shows the desired flows
- Create a continual improvement plan to prioritize actions that lead towards the newly established future state map

### 01 // KEY FEATURES
- An icon-based process mapping tool
- An educational component that facilitates knowledge transfer of the VSM methodology to participants
- Access to Internet and client-site business technologies that provide a centralized team workspace for every VSM event
- Team services include event management tracking, document collaboration, library of reference materials with document templates and real-time performance monitoring

### 02 // KEY BENEFITS
- Understand the business case for using a strategy-focused approach to operational improvement
- Rapidly identify and prioritize high impact improvement opportunities
- Define baseline performance measures and monitor for sustainment
- Promotes standardized best practices throughout your organization
- Promotes a holistic approach to performance improvement that is more effective than fragmented approaches

### 03 // DELIVERABLES
- Event “roll up” report for management that includes VSM maps and a continual improvement plan
- Current state map
- Future state map (ideal process)
- Prioritized list of high impact improvement opportunities
- Implementation plan for Kaizen Rapid
- Improvement Event (LE202)
